Dear Friend, Colleague or Antarctican,

Attached is a request for your support of a Blue Plaque for Sir Clements Markham and his London house at 21 Eccleston Square.

Although Markham is known for his association with polar exploration and his championing of Captain Scott, he was a man of many talents and accomplishments.

I hope you will help out by getting behind this nomination and publicizing the effort to others.

If you have difficulty with the attachment below, the material may also be found at <a href="http://www.antarctic-circle.org/markhamplaqueMailPackage.htm">http://www.antarctic-circle.org/markhamplaqueMailPackage.htm</a>

With kind regards,

Robert B. Stephenson, Coordinator The Antarctic Circle
